

Studio Alpha Visby

The building is a two-story structure with a total area of 1,200 m². It is designed to accommodate a studio and a living area. The building is situated in a coastal area and is designed to be energy-efficient and sustainable. The building features a mix of materials, including wood, stone, and concrete. The design is inspired by traditional Scandinavian architecture, with a focus on clean lines and natural materials. The building is designed to be a functional and beautiful space for living and working.
